---

Minneapolis Redistricting Group,

On behalf of the Jordan Area Community Council, I am writing to express our support for the Harrison Neighborhood Alternative Ward Line Map.

Harrison has serious concerns about the current proposed map, which are outlined below:

The current Ward redistricting map would split the neighborhood in half between Ward 5 and Ward 7. This would have serious consequence for the voting power of the neighborhood, ability of residents to secure representation, and would move the Bassett Creek Valley business community out of Ward 5. Harrison is a numerically small and isolated neighborhood magnifying the impact that this decision would have.

Harrison has advanced an alternative map and solution that would; 1) Keep Harrison Whole, 2) Keeps Harrison in Ward 5, and 3) Keep all the residential and commercially zoned land in Ward 5 consistent with City funding requests and Ward 5 economic interests. Harrison's Solution requires only minor changes between Wards 5 and 7.

*I have attached a hard copy of this Letter of Support*

Sincerely,  
Todd T. Heintz
